

myDtxt

[Text Feedback] module

The key to any successful marketing tool is to captivate your participants and make them coming back for more. Text Feedback gives your participants the opportunity to send a personal message to a big screen that can be displayed for everyone to see.

myDtxt Text Feedback application is also a great tool to keep your audience engaged and interested. This app allows you to display questions, answers and comments on the screens in your resident or retail dining locations.

Loved the hummus at the deli today!

Thanks for the feedback! We like it too!

The event in the dining hall last night was great!

Great! We have more events scheduled – we'll keep you posted for the next one!

The new Hot Sauce Bar is amazing. Epic!

Awesome – glad we could make your day "epic" !

Create Text Feedback Campaign

myDtxt

[Text Feedback] module

Select a keyword from the drop down menu

- a) Set up a new keyword for each dining location or if you are requesting feedback for a specific event, promotion, cuisine, etc. Each account is pre-assigned 3 keywords.
- b) Use a consistent naming convention for keywords. i.e.
 - i. Resident dining: DrakeFeedback, HinsonFeedback, ScottFeedback
 - ii. Event feedback: GlobalChefFeedback, EvexiaEvent Feedback
 - iii. Menu item feedback: GreekPitaFeedback, TatorTotBarFeedback

myDtxt

[Text Feedback] module

Forwarding messages to your key managers & supervisors is a necessary component of the Text Feedback campaign.

The screenshot shows the myDtxt.com dashboard. At the top left is the logo "myDtxt.com THE DINING CONNECTION". To the right, it says "your short code is 82257". Below the logo, there's a greeting "Hello," followed by "35 Inbox", "Keywords: 3", "Available Credits: 958 Request Credits", and "Log Out". A teal navigation bar contains several tabs: "MESSAGES" (highlighted with a red circle 1), "CONTACTS", "KEYWORDS", "APPS" (with a "NEW" badge), "ANALYTICS", and "SETTINGS". Below the navigation bar, there are several options: "Send Single Message", "Send Group Message", "Scheduled Messages", "Sent Messages", and "Message Forwarding" (highlighted with a red circle 2).

In order to ensure a great Student & Customer Experience the team must make timely replies and content pushes to the screen.

By enabling Message Forwarding by email and by text the team will know what comments are actively being communicated.

Awesome! Absolutely!!! We love flour and corn tortillas :-)

looking good but need more gluten free options" ☆☆☆☆☆ [Unpublish](#)
 Date: 07/02/14 11:53:21 AM
 Mobile #: [REDACTED] [Private Reply »](#)

The location of the gluten-free items has changed, so please ask Chef Chad to walk you through the options! Thank you for the compliment!

- To Publicly reply to messages from this site, write your response in the box below and click **[Publish]**
- To Privately reply to messages, click on **[Private Reply]** next to the message. These messages will not be displayed on the screen but will only go to the person originating the comment.
- To post a general comment or question from our management staff (i.e What do you think about our new Pop Up Bars?) click on **[Add Manager Post]** .
- To unpublish specific messages, click on **[Unpublish]** next to the desired message.
- To forward feedback to specific cell phones, click on "Forward feedback to cell phones"

myDtxt

[Text Feedback] module

Important Reminders:

- Test the system BEFORE you open to customers.
 - Make sure you have SDX staff send comments to the keyword, make sure it displays correctly on the screen, you understand how to navigate the system, etc.
- Make sure to frequently upload your comments/messages to your digital screen – at least once every 1 – 2 hours is best
- Carefully assign responsibility for monitoring feedback to a management person and a backup.
- Make sure to closely monitor your feedback for any time-sensitive comments and reply immediately
 - i.e. The Pizza Station is out of pepperoni pizza!

myDtxt

[Text Feedback] module

Best Practices

- Set a pattern of management for reviewing comments in a timely manner
 - Unit Marketing Coordinator & Student Promotion Coordinator review hourly for timely responses to positive comments and critical service issues
 - Positive Comments are captured to a spreadsheet for display at the timeclock / huddle / management meetings
 - Critical Comments are escalated to the Manager on Duty for immediate resolution and response
 - Operations Management reviews queue in the morning and in the evening to respond to service complaints
- Capture witty comments for a “top feedback” campaign
 - Create an image with the top 5 comments
 - Leverage the myDtxt voting/polling platform
 - Update your signage to display the live voting
- Thankful Campaigns for the holidays
 - Feedback keywords specifically for “what are you thankful for” and display them on screen
- Always double-check the meanings of what our customers are texting in.
 - We should be cognizant of slang and terms used by our customers that should not be on screen.
- Surprise & Delight
 - Send customers who have had positive feedback a token of our appreciation for their feedback
